Research

Mar 2017 – Nov 2017 Research Collaborator, under supervision of Dr. Leonardo Seoane, Ochsner, Jefferson LA

Project description – the paper focuses on how to develop a global health rotation in Haiti for medical students

Feb 2016 – Nov 2017 Research Assistant, under supervision of Dr. Rajiv Gala, Ochsner, Jefferson, LA
Participated on Ochsner's National Initiative V Team; the National Initiative V was an 18 month long project that worked to address disparities in health care. One project aimed at improving LGBT patient cultural competency through medical resident education. A second project helped to increase awareness of high cost medications commonly prescribed at hospital discharge, and provided medical residents with a list of alternative, more affordable medications in hopes of improving medication compliance and decreasing re-admissions.
